EDUCATION

Ontario Tech University
Software Engineering (BEng)

Expected Graduation: 04/23
Oshawa, Canada

WORK EXPERIENCE

Cisco | Software Engineer Intern
Angular, Typescript, GoLang, Java Spring Boot

Jan 2022 – Oct 2022
Ottawa, Canada

- Worked on converting Micro-service written in Java Spring Boot to GoLang
- Created UI components in Angular
- Designed and implemented an animation to greatly enhance the UI/UX of the product
- Worked in an agile environment

Medicasoft | Software Engineer Intern
Angular, Typescript/JavaScript, Sass

May 2019 – August 2019
Toronto, Canada

- Built web forms for medical practices that reduced the time to produce medical reports by over **50%**.
- Lead the development for the user interface of a Laboratory Information System (LIS) using wire-frames provided by the UI/UX designer.
- Developed an Angular work-space to convert the existing collection of reusable user interface components into an Angular library that can be shared across all company projects using Node package manager (npm) - improving workflow and maintainability.

Software Developer Contractor

Angular, Typescript, Sass, Angular Material, Google Places API, Google charts

Toronto, Canada

- Designed and built a content management system for a charity that directly contributes to the charity's increase in efficiency and ease of maintainability for their records.
- Implemented data visualization tools to easily manage donations, donors and donation recipients.
- The content management system is essential to the charity's transition to a paperless system.

PROJECTS

The Shoppies: Movie Awards | Angular, Typescript/JavaScript, Angular Router, HTML, Sass 🌐

- Designed and built a web application that searches movies on The Open Movie Database (OMDB) api.
- The application allows users to nominate up to 5 movies from the database.
- Implemented a shareable links feature where users can share their nominations with other users.

Sorting Algorithm Visualizer | JavaScript, HTML, Sass 🌐

- Built an application that visualizes popular sorting algorithms.
- Implemented Merge Sort, Quick Sort, and Bubble Sort.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, Sass, GoLang, Node.js, Python, Java, SQL

Developer Tools: Git, GitHub, Firebase, Unix shell, MacOS Terminal, Node package manager (npm), Angular CLI

Libraries/Frameworks: Angular, React, jQuery, Express.js, Angular Material, Bootstrap, JUnit

Skills: UI/UX Design, Object Oriented Programming, Data Structures & Algorithms, Agile Software Development

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Web Programming
- Software Design and Architecture
- Distributed Systems
- Database Management
- Systems Programming
- Object Oriented Programming
- User Interface Design
- Computer Networks
